

13th Kudowa Summer School

„Towards Fusion Energy”

13 – 17 June 2016, Kudowa-Zdrój, Poland

Purpose of the School

The Institute of Plasma Physics and Laser Microfusion (IPPLM, Poland) and International Centre for Dense Magnetised Plasmas (ICDMP) are organizing the 13th Kudowa Summer School, which will be held in Kudowa-Zdrój, Poland, from 13th to 17th June 2016.

The school aims to provide courses on various aspects of fusion energy, plasma experiments, plasma modelling and technology for young scientists from different countries. The subject of the Kudowa Summer School in 2016 is "Power exhaust in fusion plasmas".

The following topics will be addressed

- Basic edge plasma transport
- Edge plasma modelling, operation and edge control
- Plasma-wall interactions and related diagnostics
- Plasma-facing components

Presentations

Participating students are encouraged to present **short** (10-15 min.) **talks** about their research activities. They do not need to be directly connected with the school topics. Interested participants are kindly asked to **send an abstract** (1page, Times New Roman, 12 pt., single spaced) of their proposed presentation before 15th February, 2016.

Depending on the availability of funding we consider the possibility to publish the contributions of the participants in the Nukleonika Journal.

General Information

The **preliminary registration** starts on 15th December 2016 and should be done via Kudowa Summer School website: <http://kudowaschool.ipplm.pl>

The **total fee**, which includes full board, a lecture notes, social programme and lodging is **1900 PLN**.

European students attending the Kudowa Summer School might be able to apply for funding through FuseNet.

Detailed information and the programme of the School including the timetable of lectures will be sent to applicants in due time.
